📞 +91-9667049891 📍 Delhi, India 🌐 [linkedin.com/in/imrohittsingh](https://www.linkedin.com/in/imrohittsingh)
✉ imrohittsingh.rs@gmail.com 💻 [LeetCode](#)

B.Tech CSE 3rd year student with a strong foundation in Data Structures Algorithms, Object-Oriented Programming, and full-stack web development. Proficient in C++, Java, Python, React, Node.js, Express.js, and MongoDB. Solved 200+ algorithmic problems on LeetCode, strengthening analytical and problem-solving abilities. Actively seeking internship opportunities to apply technical knowledge and grow as a software developer in a dynamic environment.

Experience

Web Developer (Personal Projects)

2024 – Present

Self-Initiated

Remote

- **Portfolio Website** | [GitHub](#) | [Live](#)

A personal portfolio to showcase projects and skills, built with React, Tailwind CSS, and Framer Motion.

- **SquishUrl** | [GitHub](#) | [Live](#)

A URL shortening service that allows users to create short links from long URLs. It provides analytics on link usage and allows users to manage their shortened URLs. Uses JWT for authentication and authorization.

Competitive Programmer

2024 – Present

LeetCode

Online

- Solved 200+ coding problems covering arrays, strings, linked lists, trees, graphs, greedy algorithms, recursion, and dynamic programming.
- Refactored code solutions in C++ and Java to optimize time and space complexity.

Technical Skills

Languages: C, C++, Python, Java, JavaScript, HTML/CSS

Frameworks & Libraries: React, Node.js, Express.js, Tailwind CSS, Framer Motion

Databases: MySQL, MongoDB

AI/ML & Data Science: NumPy, Pandas, Matplotlib

Developer Tools: Git, GitHub, VS Code, Vercel

Education

Bachelor of Technology

Aug 2024 – July 2028

University School of Information Communication and Technology

Delhi

- Major: B.Tech in Computer Science

Projects

URL Shortener | [GitHub](#) | [Live](#)

Node.js, Express.js, MongoDB, EJS, JWT, bcrypt

- Developed a full-stack URL shortening web application designed to compress long URLs into manageable links.
- Implemented user authentication and secure session management using JSON Web Tokens (JWT) and bcrypt password hashing.
- Built robust RESTful APIs to handle secure URL creation, database storage, and instant redirection logic.
- Designed clean, server-side rendered user interfaces using EJS templates for managing shortened links and tracking usage.

Strengths

Problem Solving

Strong analytical skills developed through DSA practice and competitive programming.

Quick Learner

Ability to grasp new technologies and programming concepts rapidly.

Team Collaboration

Experienced in working with peers on academic and personal projects.
